

I am a 30 year property owner in the proposed Greenbelt that will be used to mitigate the loss of farm land in the North and Middle of the of the Coyote Valley. I am a member of the Coyote Valley Alliance. We are entering the fourth year of meetings and stressful gatherings at which I have expressed a protest of the arbitrary action of the Coyote Valley Specific Plan. Mayor Gonzalez, Councilman Williams and Laurel Prevetti of the Planning Department are quite aware of my protests. However, no response to the serious issues raised concerning the Greenbelt have been received, nor addressed in a meaningful fashion. This is very demeaning to us. The process has become a very stressful situation affecting the value of our land and our ability to earn an income from use of the land. There are no buyers for this land due to the circumstances surrounding the lengthy discussions and lack of clear planning for the area. We are forced to consider a lawsuit to protect our planned retirement investment since Ms. Prevetti has told us that despite 4 years of discussion of this matter we may still be facing more years of study before anything happens in the Coyote Valley. I am requesting the City Council to delay acceptance of the Task Force recommendations until the issues concerning the Greenbelt are resolved.

Thank you,
